

Atlanta, GA. | June 1, 2010

Bluewater Energy Solutions has entered into an agreement with US Salt LLC, US Salt Biomass Power Plant.

Project located in Watkins Glen, NY and Bluewater Energy Solutions will provide US Salt LLC startup and commissioning services.

Bluewater Energy Solutions is pleased to announce that it has entered into an agreement to perform startup and commissioning services for US Salt Biomass Power Plant, located in New York.

Construction has begun on the US Salt Biomass Power Plant to retrofit the generation facility near Watkins Glen, NY, in Schuyler County. The facility is expected to be operational early-2011. Major equipment at the plant includes fluidized bed boiler fueled by wood and steam turbine generator.

About Bluewater Energy Solutions

Bluewater Energy is a leading provider of startup and commissioning, plant operations and maintenance support, consulting, industrial cleaning and project management services specializing in gas turbine, coal, biomass and industrial markets. Started in 2003, Bluewater was established by a group of seasoned energy professionals in response to a growing need within the energy industry for a cost effective, safety minded, reliable service group. Our management team is comprised of industry experts who have attained the global experience, knowledge, financial depth and reputation for exceeding our client's expectations. With a wide variety of skill sets and expertise, we can quickly understand your needs and provide innovative solutions.
